

Sessions A: Oral Presentations of Student Papers, Saturday 9:00 - 10:15am BSLC 115

Session Facilitator: Dr. Leslie Cameron, Carthage College

Presentation Time	Presenter's name	Consortium College or University Affiliation	Presentation Title: (15 word max)
A1 (9:00)	Ian Brodie	Carthage College	Target visibility determines the extent of the North Effect
A2 (9:15)	Milan Neeley	University of Chicago	When Prey Fight Back: An Analysis of Functional Variation in Passerine Mobbing Calls
A3 (9:30)	Carl Stenoien	Gustavus Adolphus College	Non-host predation on free swimming cercariae: effects of predator density, predator diversity, and prey type
A4 (9:45)	Sara ElShafie	University of Chicago	Remarkable new turtle fossil from mid-Cretaceous Africa: Early pleurodire diversification and fragmentation of southern continents
A5 (10:00)	Lu Yu	Lawrence University	How Strong Are Your Cells: Measuring the Stiffness of Microtubules as a Function of Diameter

Sessions B: Oral Presentations of Student Papers, Saturday 9:00 - 10:15am BSLC 109

Session Facilitator: Dr. Ron Peck, Lawrence University

Presentation Time	Presenter's name	Consortium College or University Affiliation	Presentation Title: (15 word max)
B1 (9:00)	Shane Solger	Augustana College	The Artificial Biome: Soil Respiration in Transition
B2 (9:15)	Catherine Albright	Lawrence University	Investigating Human Rhinovirus Prevalence and Genetics in a University Population
B3 (9:30)	Luyuan Li	Lawrence University	Differential Activation of Transcription factors Induced by Human Rhinovirus 16 and 1A in Human Macrophages
B4 (9:45)	Rebecca Hamlyn	Lawrence University	Exploring transduction pathway of STATs in asthma exacerbation induced by major and minor human rhinovirus
B5 (10:00)	Aamir Mir	Lawrence University	RNA Targets of Angiogenin
